EDUCATION

Ukrainian State Chemical Technology University, Dnipro, Ukraine

Computer Science, 2009 – 2014

SKILLS DEVELOPED THUS FAR

Functional Skills: Data Strategy, Cloud Strategy, Project Planning/Timeline Development, Feature Prioritization, Code Refactoring, Technical Research and Evaluation, Requirements Analysis, Requirements Gathering, Code Optimization, Functional Design, Testing and Debugging, Team Collaboration, Mentoring, Agile Methodologies, Stakeholder Engagement.

Technical Skills: JavaScript, TypeScript, React, Next, Gatsby, Node, Express, Liquid, Tailwind, Bootstrap, MUI, Styled components, MongoDB, Firebase, MySQL, Shopify, Prismic, Contentful, Storyblok, Webpack, REST, GraphQL, SonarCloud, SEO.

PROFESSIONAL EXPERIENCE

Full Stack Developer – VT Labs, Tallinn, Estonia

06.2020 — 01.2024

- Lead frontend development on projects for high-profile clients, working closely with designers, developers, and project managers to deliver exceptional user experiences.
- Develop and maintain multiple large-scale web applications using React.js, ensuring code quality and scalability through modular component architecture.
- Develop and maintain backend functionality using Node.js to support seamless integration and interaction of commercial React applications with Shopify.
- Mentored Junior Developers, conducted code reviews, and provided technical guidance to ensure adherence to best practices and coding standards.
- Research and evaluate technical options for implementing business requirements.
- Adhere to established processes while actively engaging stakeholders.
- Identify and solve bottlenecks, bugs, and challenges.
- Participate in requirements analysis, task planning, code refactoring, and comprehensive testing.

Full Stack Developer – HeyHiHello, London, United Kingdom

11.2022 — 11.2023

- Customize and optimize React applications for Shopify platforms to enhance user engagement and drive conversions.
- Implement and maintain backend functionalities using Node.js, facilitating seamless integration with Shopify to improve user experience.
- Participate in cross-departmental cross-departmental efforts to identify and prioritize React feature improvements according to the product's trajectory.
- Lead the integration of innovative React elements aligned with the overall product vision.
- Deliver added value by developing robust and user-friendly applications that withstand real-world usage scenarios.
- Explore and evaluate technical capabilities to effectively meet business requirements.
- Follow established protocols by actively engaging stakeholders throughout the development lifecycle.
- Identify and resolve impediments, defects, and impediments to ensure smooth project progress.
- Participate in requirements assessment, task planning, code restructuring and rigorous testing.

Frontend Developer – Mediacast TV, Kyiv, Ukraine

08.2019 — 02.2020

- Create a responsive and visually appealing user interface for the SmartTV application.
- Design and implement pages, navigation menus, sections, and forms for user interaction.
- Develop modular and reusable React components to ensure code maintainability and scalability.
- Integrate external APIs or services to fetch and display dynamic data within the application.
- Implement optimizations for performance, such as lazy loading of resources and minimizing network requests.
- Conduct thorough testing and debugging to identify and resolve any issues or bugs.
- Follow best practices in frontend development, including writing clean and efficient code.
- Ensure compatibility with SmartTV devices and optimize the application for their hardware constraints.

Frontend Developer – Sminion, Kyiv, Ukraine

06.2016 — 05.2019

- Develop user-friendly websites with WordPress and OpenCart, focusing on design and functionality.
- Use HTML5, CSS3, JavaScript, and jQuery to create responsive, engaging front-end interfaces.
- Collaborate with designers and backend developers for seamless integration, meeting project — requirements.
- Perform cross-browser testing for consistent user experience across devices.
- Design and build websites with a focus on SEO, incorporating effective strategies and techniques to improve search engine visibility and rankings.
- Apply optimization techniques like image compression, code minification for faster websites etc.
- Integrate third-party plugins and APIs for enhanced functionality.
- Utilize templates and SEO strategies for improved search engine performance and accessibility.
